REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record taken alone and in combination does not disclose "a modulator assembly placed in said path of said first laser beam operable to provide an output pulse having a time-dependent pulse profile, a detection system which applies said output pulse of said first laser beam to the material under test in order to detect the ultrasonic displacements and generate at least one output signal and a data processor to process said at least one output signal of said detection system to obtain data representative of said ultrasonic displacements" as recited in claim 1. These limitations are neither taught nor made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
